Relevant Experience

Software Engineer · **RealDecoy** Oct 2023 — Present

Associate Software Engineer Apr 2022 — Oct 2023

- Build and ship high-quality, robust production code for a diverse array of projects for clients including VM Wealth, Grace Kennedy Insurance, SoftwareSecured and more
- Work alongside creative directors to lead the research, development, and architecture of technical solutions to fulfill business requirements
- Collaborate with designers, project managers, and other engineers to transform creative concepts into refined digital experiences at an agile cadence
- Provide leadership within engineering department through close collaboration, knowledge shares, and mentorship
- Lead company-wide accessibility initiatives such as creating templates for various technologies to include in our engineering department best practices and facilitating knowledge shares

Software Developer · **Radeos Technologies** Nov 2021 — Apr 2022

- Led enhancements for a Laravel-based backend and React frontend application, solidifying platform performance.
- Successfully propelled order processing speeds, leveraging feature optimization and meticulous code refactor.
- Strategically reduced warehouse errors by pinpointing and rectifying system bottlenecks and bugs
- Played a central role in the consistent upkeep of the system, encompassing bug resolutions, performance tuning, and new feature integration
- Orchestrated the conception and development of a cutting-edge SaaS product, offering pivotal media presence insights across a broad spectrum of platforms

Junior Developer · **Norus Technologies** Nov 2020 — Nov 2021

- Collaboratively worked on the inception of a crowdfunding platform, specifically tailored for micro-initiatives and groups
- Actively participated in the development of a dynamic React frontend, consistently prioritizing and delivering a frictionless user experience
- Engaged intensively with the team on the Nest.js Node backend, undertaking a variety of responsibilities ranging from feature deployments to rigorous code reviews.
